Dear Churches and Friends,

We thank you from the bottom of our hearts for your many prayers. I can't find words to describe how grateful I am for the generous gifts we received to help us in our Disaster Relief efforts in Panama City. I thank my God for you all and pray that He will bless you abundantly for your scarifical gifts.

On 22nd October, we flew to Huntsville, AL where our friends, Tom and Jinsu Gibson were waiting to help us gather the necessary supplies to take down to Panama City. After a nights rest, we picked up groceries, a couple of chainsaws, and more supplies and then drove down to Panama City.

We only had 6 days on the ground in Panama City, FL. The city was in total devastation. 90% of the city was destoyed and was without electricity, phone service and water. It was an overwhelming experience to see the devastation everywhere I turned. Bro. Tom and I joined up with my son, Eddie to tarp the roofs of our house and his house on the first day. For the next 3 days, we were cutting trees to clear the drive ways. I was on the phone everyday trying to find a roofing company, Drywall workers, a tree remover service, and an Electician to do repairs for us. Everyone in the city was in the same situation as we were. The waiting list to get repairs done was between 350 to 500. Sunday, the 28th of October we went to our home church for the morning service. Our home church was completely destoyed so the service was held under a tent. Dr. Barton preached a heart warming and encouraging message that lifted everyones spirits. Many churches sent help and many Christians were helping others to work through the hard time. On Sunday during our worship service I met a tree removal company that came from out of state. They came the next day to remove all the trees at our son's house. The same day I received a call back from the electrician I had called saying he would put us on their priority list to come out the next day. That Monday evening, the drywall company I had called explaining our situation, called me back and also moved us to the top of his work schedule. They came out the next day and began work. I was finally able to contact a roofing company. They had a backlog waiting list of around 500 people also. I explained to them that I was a missionary in Korea and only had a short time to get the repairs done before I returned to Korea. The next day God moved their heart to move us to the top of their work shedule. I was told they would reroof our houses in two weeks. So, all said and done, to God be the glory, everybody showed up to work on our son's house and our house on Tuesday, the 30th It was amazing how the Lord moved!

By the time we left Panama City, all trees were removed from off the houses, yards and drive ways; both of our houses roofs were covered with tarps to prevent further rain damage and the roofers gave us estimates for reroofing both houses. The drywall guys were half way done at my son's house; the electrician replaced the main meter box and had almost finished completely rewiring the entire house by the end of the day. We were prasing God all the way to Huntersville and flew back to Korea the next day. I am pleased inform you that God supplied all our needs between your gifts and the insurance settlement. Bro. Tom and I was also able to help our son with his pressing needs right away with the cash we took with us.

Now, we are busy preparing for our "Thanksgiving Service" with grateful hearts!
