## October 2018

The desire of missionaries is to witness, help other people accept Christ. In order to do this we wear many hats. The next couple of months our hats will be taking fast changes and much prayer is wanted and needed.

While still working on the children's home and the land, an EMS training team will be in Nakhon Nayok attempting to reach an energetic, thrill seeking, group of young men. The team preparing to come still has needs: SPO2 monitors, OPA's C-collars and non latex gloves. They really needed these before the 28<sup>th</sup> of October, but if you can and want to still help, contact us immediately.

Our prayer warrior has already arrived and has already began the prayer vigil. Please pray for this outreach. I've heard of team members of fasting before they get here.

At the same time pray for the 2 churches we are working on. We really need Thai leadership. We aren't the only missionaries struggling with the mentality of sitting back and just let the foreign missionary do it. We really desire for national men to catch a vision with a deep burning desire to serve full time.

During the time the EMS team is here, friends of ours are coming for a visit. Since they are our generation and will travel halfway around the world for the first time, we will try to be easy on them. A couple of days in Nakhon Nayok, a couple of days at the Children's Home, then a couple of days at Elephant Island.

So all of this just before the holidays ...keeping up with letter writing, making contact with churches in the States, keeping track of finances, taking care of 2 churches, studying to prepare teaching and preaching, keeping cars going, taking care of kids, house, land, and family??? Our plate is full...the hats are many. We truly need your prayer.
